Duration of the study program:	1 year (2 semestres)
ECTS:	60 ECTS
Study:	Full Time
Diploma:	Professional Master 60 ECTS in Business Administration with profiles: "Management" Finance- Accounting"
Language:	Albanian

PROGRAM OBJECTIVES

The aim of the program is to quickly prepare professionals in the fields of management and accounting-finance, capable of taking on management and leadership roles in various business entities, as well as in other sectors such as the public and non-profit sectors.

The main objective of the Professional Master's program in Business Administration with 60 ECTS credits, with two profiles: "Management" and "Accounting-Finance," is to prepare general administrators or managers, as well as specialized administrators in more specific aspects such as finance-accounting and management. They will be equipped with higher-level theoretical knowledge, combined with broader practical skills to enable them to understand the requirements, conditions, and developments of the specific market in which the business competes, and the economic, legal, and social environment, making them more capable of entering this market.

Additionally, this study program aims to achieve the following objectives:

- To prepare students with highly specialized theoretical and practical knowledge, at advanced and contemporary levels in the field of business administration, capable of critically analyzing the acquired knowledge.
- To offer students advanced and contemporary knowledge and enable them to gain skills in management, accounting, and finance profiles, necessary for sound business management.
- To make students capable of solving various problems encountered during the administration of a private business, or in the public sector and beyond.
- To develop the ability to solve problems related to research, development, or innovation to support new business operations, as well as to gain market share.
- To enable students to make substantial transformations in their current job positions, provide direction in unpredictable situations by finding strategic solutions for the entities where they are currently conducting their professional practice or are employed.
- The primary objective of TBU is for students pursuing this study program to advance one step higher in their careers before completing their studies.
